Work Experience

Business Technology Consultant

MRSB Group

2019 Summer

Charlottetown, PE

- Developed a shortcut system using Microsoft Word, VBA code, and batch files that inserts commonly used text snippets reducing document procurement time to 1/10 of the original time
- Employed VBA, SQL, and Microsoft Access to develop an internal client database to improve the historical data retention capabilities of the consulting division.
- Developed a searchable staff directory on MRSB's public website utilizing jQuery and Wix Corvid.

Program Assistant

SHAD UPEI

2018 Summer

Charlottetown, PE

- Facilitated a STEM and entrepreneurship focused summer program for 48 accomplished high school students.
- Produced web development bootcamps teaching the fundamentals of HTML and CSS

Distribution Manager

Welcome PEI

2017 Summer

Charlottetown, PE

- Managed the relations with 150 clients and 300 distribution points for paper tourism publications.
- Optimized daily delivery routes through the usage of Google Map and open source code.
- Utilized Excel and historical delivery data to optimize weekly delivery quantities to high volume locations.
- Achieved the most successful delivery year in the company's 25-year history. 100% of product reached consumers.

Projects

Custom Order Web App

Oil Thigh Design (OTD)

Currently in Progress

Utilizing Node, Express, EJS, UIKit, and Airtable. The app allows customers to choose from available garments and select colors, logo position, order quantities, etc. I am successfully meeting time constraints, budget constraints, and stakeholder needs.
